1. Reference citations in the text should be given serially in Introduction section and Discussion section, reference numbers should be given as superscripts at the end of full stop of the respective sentences without any brackets.

2. The methods section should contain study design, study place and period (from month, year of study to month, year), selection criteria/inclusion and exclusion criteria of samples, procedure, ethical approval and statistical analysis.

3. How was the sample size calculated? or Sampling technique used in the study should be mentioned in methods.

4. Total number of tables and figures (both included) should be no more than 10. Merge some data to reduce the numbers as text.

5. Limitation of the study should be presented at the end of the discussion section in a paragraph.

Submit revised manuscript within 5 days.

Note: Authors should upload the revised manuscript in the same active manuscript id (IJCMPH-10440). There is no need to make any new submission for the same manuscript title or ID.

Sincerely,
Editor
