ABSTRACT

BACKGROUND: *Adolescents are particularly vulnerable to sexual relations outside of marriage, which can have significant implications for their reproductive health. In Indonesia, adolescents aged 8 to 23 years old represent a significant proportion of the population. Yogyakarta is one of the areas most affected by adolescent reproductive health problems.*

Objective: *The study aimed to description the characteristics, level of knowledge, and attitude of adolescents about premarital sex at the Nailul Muna Dormitory in 2024.*

Methods: *It was a descriptive research with corss sectional design. Data were collected in Mei – June 2024. The population were 30 female adolescents. Samples were the population as well consisting 30 girls at Nailul Muna Dormitory. A questionnaire was used to collect the data from the respondents. Data were processed using a computer program. The instrument was subjected to a test of validity and reliability.*

Result: *Findings indicated that the educations of the fathers of respondents were mostly Diploma/Bachelor Graduates (40%) while the mothers’ were mainly high school graduates (46, 7%). The majority of respondents' fathers were in the high income bracket (83.3%) and the mothers’ as well (53.3%). The majority of respondents' father's occupation is working with (100%) and so do the mothers (70%). From the aspect of media exposure, most respondents (70%) got information about premarital sex from many sources. Based on the analysis of the research, it was identified that the level of knowledge of the female adolescents about premarital sex is adequate (86, 7%) while the level of the attitudes was negative (56,7%).*

Conclusion: *The level of knowledge of almost all of the respondents regarding premarital sex is sufficient and the attitude of most respondents regarding premarital sex is not good (negative).*

Keywords: *Level of Knowledge, Attitudes, Premarital Sex.*

**GAMBARAN KARAKTERISTIK, TINGKAT PENGETAHUAN, DAN
SIKAP REMAJA TENTANG SEKS PRANIKAH DI ASRAMA PUTRI
NAILUL MUNA TAHUN 2024**
